RE: Public Records Reference # P001426-100616

Mr. Snow:

The City of Sacramento received your California Public Records Act request dated October 06, 2016 wherein you requested various records, including communications, pertaining to homelessness in Sacramento.

The City has collected records responsive to your request. These records have been uploaded to the portal.

The City works in partnership with the nonprofit agency Sacramento Steps Forward to address homelessness in the Sacramento region. Many of the records you are seeking are records originating with Sacramento Steps Forward, and are therefore records that are not maintained by the City of Sacramento. You can visit the City's Homeless Coordination page for additional information regarding homelessness in Sacramento: <http://www.cityofsacramento.org/City-Manager/Homeless-Coordination>.

The records being provided to you today titled "Responsive Emails #1" pertain to your request for "Communication [between the City and] the FBI, Department of Justice, and Department of Homeland Security."

Regarding the remaining communications records you requested, the initial search yielded voluminous results and our office requested clarification from you on October 26, 2016. You provided a list of search terms that you were interested in on November 3, 2016. Based off of that list, the records being provided to you today titled "Responsive Emails #2" pertain to your request for emails containing the following terms: "facial recognition", "Northern California Regional Intelligence Center", "NCRIC", "High Intensity Drug Trafficking Area", "HIDTA", "rapid DNA", "IAFIS", "Next Generation Identification", "Interstate Photo System", "Erich Snow", or "foia.pra.research@gmail.com."

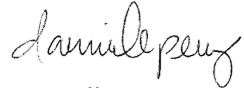

Regarding the remaining search terms on your list, our office advised you on November 10, 2016 that the search terms were still voluminous and would require additional narrowing. As we have not received any follow up correspondence from you regarding the remaining search
